Responsibilities: Learned about the Full Stack Development, Designed and developed the projects assigned with back-end on Python, Django and SQL Databases and Front-End using Angular, HTML, CSS, Bootstrap

Kakkanad

PROJECTS

Linksphere

Linksphere is a ultimate social media experience designed to connect and engage users in a dynamic and meaningful way. Technologies used in this project includes Python Django Framework, Frontend Technologies like HTML, CSS and Bootstrap.

ScrapBox

Scrapbox is a vibrant Django project tailored for local buying and selling of used items. At scrapbox, users create classified ads spanning electronics, furniture, bikes and cars. With a User-friendly interface, finding desired items is seamless. Direct communication is enabled through readily accessible seller contact details. A dynamic bidding system fosters negotiation and competitive pricing. And with a wishlist feature, users can easily bookmark items for future reference.
